Dear Laura Achee,

Under the Alaska Open Records Law, A.S. Code § 40-25-110 et seq., I am requesting copies of any and all public records of “Hazardous Chemical Spill Reports” prepared by the Ocean Rangers during the cruise season of 2018. In addition, please include the “additional observations” filed by Ocean Rangers regarding the Exhaust Gas Cleaning System (EGCS) a.k.a. scrubbers. I would also request any staff memos summarizing the Ocean Rangers’ findings relating to the performance of EGCS with respect to water discharge and visible sheens observed.

As a member of the media acting in the public interest, I respectfully request that you expedite and fulfill this request electronically. CoastAlaska is a public broadcaster; this information is not being sought for commercial purposes.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

All communications regarding this request should be directed to me, regional news director, Jacob Resneck, preferably via email at jacob@coastalaska.org; or by phone at 907-463-6440 or by mail at 360 Egan Drive, Juneau, AK 99801.

Thank you for considering my request,

Jacob Resneck, regional news director
