Product Spilled	It appeared to me to be some kind of black soot type substance.
Spilled Quantity	Small amount around the area of the wash water discharge from Scrubber system being used.
Spilled UOM	Unknown
Affected Area (number)	10
Affected UOM	Sq Feet
Color And Appearance	Unknown
Source of Spill	I noticed this while docking here in Juneau around the area of the Scrubber WW discharge.
Is it a greater than 400GT Vessel?	Yes
Cause of Spill	Unknown
Cleanup Actions	Unknown
Comments	I was on deck when arriving into Juneau today. I noticed a blackish substance on the top of the water as we were tying up. (In the area of the Scrubber WW discharge) I went down and reported this to the

Environmental Officer. We both went back up on deck to look at this.

When we both got out there the Scrubber had been secured. There was still some black residues on the water around the ship.

The EO took a couple of pictures of this. We went back down below and spoke with the Engineer on watch. He informed us that DG # 6 was secured @ 12:30. (HFO and Scrubber were used on this Generator.). Ship is using MGO now on DG being used.
