

Potential Responsible Party

Name/Business	Holland America
Vessel Name	Amsterdam
Mailing Address	Seattle, Wa
Contact Name	Peter Tukker, Amsterdam Environmental Officer
Contact Number	amdm-environmental_officer@hollandamerica.com
Is PRP Vessel Aware of Incidents	Yes
Remarks	The Environmental Officer notified Holland America Group office and Ship's Agent at 1445
Will Vessel Be Self Reporting Incident to ADEC-SPAR	Don't know
Remarks	Environmental Officer notified Holland America Group headquarters in Seattle and the Ship's Agent in Juneau.

Reporting Party Information

Report Date	Jul 25, 2018
Person Reporting	Philip Parent
Vessel Stationed Aboard	Holland Amsterdam
Vessel Code	HAM
Trip Type	VO

Spill Information

Date & Time of Spill	Jul 24, 2018 1:30:00 PM AKDT
Date & Time Discovered	Jul 24, 2018 1:30:00 PM AKDT
Description of Location	CT Dock at Juneau, Alaska
Substance Type	PW - Process Water
Product Spilled	EGCS washwater discharge
Spilled Quantity	Unknown
Spilled UOM	Unknown
Affected Area (number)	0
Affected UOM	Unknown
Color And Appearance	Silver/Gray
Source of Spill	DG2 EGCS washwater discharge
Is it a greater than 400GT Vessel?	Yes
Cause of Spill	EGCS washwater bag filters blocked
Cleanup Actions	None - Washwater discharge was under the dock and difficult to observe. Washwater effluent dissipated with the current. EGCS was secured.
Comments	Environmental Officer informed the Ocean Ranger on July 25, 2018, that the DG2 EGCS washwater discharge bag filter clogged up

with debris and the EGCS tower tripped offline causing the EGCS wastewater effluent and a sheen to be released into the sea after running on bypass. This occurred while the vessel was at the CT Dock in Juneau on July 24th, 2018, at 1330. The EGCS engineer responded to the EGCS alarm at 1330 and immediately went topside to observe the discharge. He observed the effluent pier side and notified the Environmental Officer, Chief Engineer, and the Captain and the DG2 EGCS was secured and the vessel switched over to DG1 using Low Sulfur MGO. The Holland America Group headquarters in Seattle and the Ship's Agent were informed by the Environmental Officer at 1445.

NOTE: As a result, the EO said that Holland America Group has instructed all cruise ships to discontinue EGCS use in Alaska ports and Seattle if the ship EGCS discharge outlet location is pier side, where it's difficult to observe the discharge.

FIELD	ENVIRONMENTAL INCIDENT OR NEAR MISS REPORT - INPUT AREA
Vessel	Holland Amsterdam
Reported By	P.J. Walker, EO
Date of Event	7/24/2018
Time of Event	13:30
Incident or Near Miss	Incident
Vessel Position	Alongside
Port/Water Body Name	Juneau, CT Dock
Pollutant Type	Other Environmental Type
Estimated Quantity	Unable to measure
Department	ENGINE
Specific Location	DG 2 Port Wash Filter outlet 5ft side aft.
Description	Ship running on DG2 and when putting EGCS wash water filter online the tower tripped on high level, very likely due to blocked filter. After running on bypass this caused visual surface effects in the immediate area.
Immediate Action	After consulting with C/E, Captain and EO it was decided to change engine config. to DG-1 on MGO.
Analysis	See under description
Consequence	N/A
Recommendations/ Follow-Up Action	Ship is waiting for parts to repair inline filter EGCS DG 2. Parts are still not onboard. Seattle office has been notified about the urgency to have EGCS-parts onboard on short notice.
