

Potential Responsible Party

Name/Business	Holland America
Vessel Name	Volendam
Is PRP Vessel Aware of Incidents	Yes
Remarks	EO Eddie Swift was with me making rounds of mooring stations and open decks when we observed the sheen off the aft of the ship.
Will Vessel Be Self Reporting Incident to ADEC-SPAR	Don't know
Remarks	The last time I spoke to the EO Eddie Swift about the incident at about 9:42 am he was about to inform the Captain that I would be submitting this report, and not sure what they would do.

Reporting Party Information

Report Date	Jul 20, 2018
Person Reporting	Chris Schneider
Vessel Stationed Aboard	Holland Volendam
Vessel Code	HVO
Trip Type	VO

Spill Information

Date & Time of Spill	Jul 20, 2018 10:35:00 AM AKDT
Date & Time Discovered	Jul 20, 2018 10:35:00 AM AKDT
Description of Location	The Volendam was stationary to transfer passengers to a tour boat for a tour of Tracy Arm. I observed the sheen off the stern of the ship at 9:20 am. By 9:30 am the Volendam was moving again and no discharge or sheen was visible.
Substance Type	UNK - Unknown
Product Spilled	Unknown
Spilled Quantity	unknown
Spilled UOM	Unknown
Color And Appearance	Unknown
Source of Spill	The sheen appeared to be emanating from the scrubber overboard discharge.
Cause of Spill	Appeared to be from the scrubber discharge.
Cleanup Actions	None that I was made aware of.
Comments	EO did not have his camera on him so he wasn't able to get any photos, but he seemed very concerned about it. He also called the Chief Engineer who came out to look at it. I emailed the EO Photos 1 and 2 so he had something to show Holland. Video was sent in separate email to CPVEC.
